LR 236-251

SENATOR CHAMBERS: When I hear things like that I just wonder how the process would work out.

SENATOR KRISTENSEN: No, here's what I envision happening, there's a number of people here on the floor who, and yourself included, who have raised questions. I know that you're not inclined to vote for the bill in any form, or most any form. And I understand that, and...

SENATOR CHAMBERS: Generally.

SENATOR KRISTENSEN: ...and that's not part of any deal. I don't expect anybody to say, look, we adopt an amendment and that forces me to vote for the bill. I don't believe in that. But what happens is Senator Stuhr and some of the others have raised questions, I don't know what the bill does, I'm not sure how it works, should I delay its implementation, those sorts of things. If that's required and there's...and it appears to me that there's sufficient numbers of people that would want to defeat the bill, that it's likely that it needs some work, there's no sense of running that, it makes more sense to hold it, work on it, and try to fix it through the interim.

SENATOR CHAMBERS: I understand now. Thank you. That's the only question area that I had. Thank you.

PRESIDENT ROBAK: Seeing no further lights, the question before the body is the advancement of LB 271A. All those in favor say aye. All those opposed nay. LB 271A advances. LB 752. Before we get to the bill, Mr. Clerk, items for the record.

CLERK: Madam President, items for the record. Study resolutions. (LR 236-251.) Those will all be referred to the Executive Board for referral to the appropriate Standing Committee and/or Special Committee. Senator Wehrbein would like to print amendments to LB 150. Enrollment and Review reports (LB) 314A, (LB) 517A, (LB) 851A correctly engrossed. And I have a notice of confirmation hearing by the Health Committee, signed by Senator Wesely as Chair. That's all that I have, Madam President. (See pages 2243-51 of the Legislative Journal.)
